

BLOOD TIDES OF LH'OWON

10 YEARS OF MARATHON INFINITY

Oct. 15, 1996 to Oct. 15, 2006

Ah, yes, watching bodies fly around on Duality, shoosting pfhor with shotties, and, of course, Spanking the idiot with the ball. 10 years of Marathon ∞ and it has only gotten better. The community is still thriving, coming out with new scenarios, maps, physics and improving graphics. This map honors Marathon Infinity becoming double-digits. Notice that the map itself looks like the Infinity sign-

I hope you enjoy it. I think it is best played on King of da hill. But you can choose your favorite game type...

v1.1 Fixes cramped parts of the map, lowers rocket numbers, and makes it easier to get to the passages around the central ovals. Overall, makes the map easier to get around.

Special thanks to the people who continue to create maps, physics, improve the graphics, and make the overall engine better. VID ON FOREVER!
